SEA-EU
The European University of the Seas

Prof. Mile Dželalija, PhD

EUROPEAN UNIVERSITIES -

KEY PILLARS OF THE EUROPEAN EDUCATION

What are European Universities?

European Universities are transnational alliances of higher education institutions developing a long-term structural cooperation and offering systematic mobility and recognition of learning periods in partner universities, complementary curricula and joint degree.

Key principles of the European universities cooperation

- Long-term strategy focused on sustainability, excellence and European values
- Students can design their own curricula leading to a European Degree
- Enhanced mobility for students and joint research projects for academic staff
- Students, academics and external partners cooperate in teams covering different disciplines to tackle big issues Europe is facing today, such as climate change and sustainable agriculture

SEA-EU

Some advantages of studying at the SEA-EU university

- ✓ Joint educational policies and recognition of qualifications among SEA-EU universities
- ✓ Digitalisation
- ✓ Increasing European mobility and cooperation between students and staff (virtual mobility courses, intensive courses, cultural and sport events)
- ✓ Fostering multiculturalism and inclusion
- ✓ Linking university to society
- ✓ Innovative pedagogies and digital technologies
- ✓ Fostering multilingual competences

Quality Assurance within the SEA-EU

- ✓ Quality and Ethics Subcommittee (QES)
- ✓ Leader of the QES is a member of the Executive Committee
- ✓ Quality Manual of the SEA-EU – key tool – with all details of the project – activities and tasks, responsibilities, deadlines, outcomes and outputs, indicators
- ✓ Regular meetings of the QES and Executive Committee
- ✓ Reporting mechanisms
- ✓ Internal and external evaluation mechanisms

Thank you for your attention.
